

Dear Vendor:

We would like to invite you to participate at the Merrimack Farmers' Market. We consider ourselves to be a growing, progressive market for direct marketing of local produce and agricultural products. We are quickly approaching our 9th season and are looking to expand the market to satisfy the needs and requests of our customers. To improve our Farmers' Market, we have hired a Market Aide to be on-site at the market every Wednesday for assistance and information.

Customers of the 2015 Market were consistently requesting vendors that offer early and mid-season vegetables, table greens and heirloom plants. We would also like to offer our customers a variety of bakers, including gluten-free, maple syrup and bee products, and fish and lobster vendors. We would also like to encourage CSA farmer participation and vendors with a variety of New Hampshire made crafts and wood products. The possibilities can be endless.

The Merrimack Farmers' Market will be held at Vault Storage, 526 Daniel Webster Highway in Merrimack, NH. This location provides vendors with a much larger customer turnover and greater opportunities to buy from various vendors. The market is open on Wednesdays from 3:00 p.m. to 6:00 p.m. from June 15 to October 12, 2016. Our fee remains low at only \$125.00 for the season. Please review the enclosed application and contact us with any questions that you may have.

Sincerely,

Robert McCabe, Chairman
Merrimack Agricultural Commission
