The walk followed the location of Road "A" from Wire Road through to Whispering Ponds Road, with Mr. Clinton pointing out the various intersections with Roads "B" through "G". There were clear markers to guide people, and each intersection was clearly marked.

The party continued down Whispering Pines Road to its intersection with Wire Road, enabling Mr. Clinton to indicate the approximate proposed locations of Town water and Town sewer that will be required to service the development.

The party finally reviewed the location of the proposed drainage area, currently at the edge of the quarry. Mr. Clinton indicated the work that will be carried out at the quarry to restore it before the development is activated.

There was a quorum of Planning Board Members present, and the Chair reminded those present of the requirement of "no discussion".
