EDCAC members thank Dawn Shepherd for her service as a committee member, and wish her well on her relocation to Thailand, where she will be teaching English.

3. Business
   a. Project tracking program – Doug Dowell
      The committee discussed a proposed project tracking software program, Trello, and its merits relative to a simple tracking system which Doug developed and submitted to the committee for its use a few years ago.

      The committee concluded that a simple tracking system with virtually no learning curve requirement would be preferable to a system which had any learning time associated with it. Therefore, it was decided that the committee would employ the system Doug developed.

      Ken indicated that he would like to review Doug’s system with the purpose of exploring additional functionality for that system. Ken’s action item is the first to appear on this system.

   b. Continue review of economic development portion of Town website
      Susan provided printouts of a flowchart she prepared of the elements of the EDCAC portion of the Town website.

      Reviewing these printouts, topics discussed were:
      • Keeping the elements in alphabetical order
      • The appropriateness of Twitter to the concept of Business Resources
      • Overall organization and layout of the pages
• Current and proposed functions of each of the tabs
• The Welcome letter
• Revision and deletion of certain sub-element links

Ken will provide a mock-up of the Welcome page for the next EDCAC meeting. The committee will discuss this page and others at the next meeting.

c. **Discuss plans for holding a workshop on local and regional services available to businesses**

Susan has asked Laurel Bistany to make a presentation on this subject, with Tim Thompson contributing. The intended participants of this workshop are representatives of current and prospective town businesses. The committee discussed possible publicity methods.
