Announcements

- The Library will be closed from Sept 19-24 while the 20+ year old carpet is replaced throughout the building. Our outside book drops will be closed and all due dates for items will be extended through Sept. 26th. Be sure to visit us beforehand to stock up on all your favorite books, movies and games. Our virtual library of thousands of ebooks, audiobooks, films, TV shows, comics and music will not be affected.

- Tonight (September 8th) will be the last of the Transfer Station’s extended summer hours for the season. We will be resuming our regular hours to Tuesday through Saturday 8:00 am until 4:00 pm.

- The Merrimack Public Works Department will be hosting a Local Concerns Meeting for the proposed safety improvements at the US 3/Wire Road intersection on Monday, September 26 at 6:00 PM. Please visit the Public Works website or call the office at 424-5137 for more information.

Town Manager’s Report

- Gail Road Construction has been progressing well - the main line of the drainage is expected to be completed the first part of next week (weather dependent). Then there are 3 new structures that will need to be tied in across the street. After the drainage is completed the road will be reconstructed and paved.

- The annual Mill & Fill program where our highway crew grinds up failing pavements and utilizes a rental paver to pave the patches is complete for this year. The two week program repaired poor pavement areas on Turkey Hill Road, Windsor Drive, and South Baboosic Lake Rd.

- The rehabilitation of the timber deck on the wastewater bridge at the east end of Watson Park is complete. RS Audley completed the work in just over two weeks. The work involved removing the guardrail and timber deck from the 140 foot span bridge over Baboosic Brook, replaced the deck with new timbers and reinstalled the guardrail. The bridge allows our wastewater staff to access the sewer interceptor and a sewer siphon on the east side of Baboosic Brook.
