

## Merrimack Private Well Owners PFAS Grant Reimbursement Program

### Definitions:

NHDES AGQS- NHDES Ambient Groundwater Quality Standard

MVD - Merrimack Village District

NHDES – New Hampshire Department of Environmental Services

PFAS- Per- and polyfluoroalkyl Substances

PFHxS – Perfluorohexanesulfonic Acid

PFNA – Perfluorononanoic Acid

PFOS - Perfluorooctanesulfonic Acid

PFOA - Perfluorooctanoic Acid

POET – Point of Entry Treatment

POU System – Point of Use

SGPP – Saint Gobain Performance Plastics

### Purpose:

To reduce exposure to PFAS in drinking water for private well owners outside the 2018 Consent Decree area for the SGPP Site and whose wells have exceedances of any one or more of the four NHDES AGQS for PFAS set by the state at RSA 485:16-e as may be amended:

<b>Per- and Polyfluoroalkyl Substance</b>	<b>NHDES Ambient Groundwater Quality Standard [nanograms/liter; parts per trillion (ppt)]</b>
Perfluorooctanoic acid (PFOA)	12
Perfluorooctane sulfonic acid (PFOS)	15
Perfluorohexane sulfonic acid (PFHxS)	18
Perfluorononanoic acid (PFNA)	11

The grant funds may be used to install either a single POET OR POU systems; OR to connect to MVD public water. The Town will reimburse homeowners up to \$6,500 for a single POET OR multiple POU systems OR connection to the MVD water system. **The \$6,500 cannot be combined with any other state, local, or federal grant opportunities. The private well must be located in Merrimack and must be outside the 2018 Consent Decree area for the SGPP Site (see attached).**

**This reimbursement opportunity is grant funded and will be available on a first come, first served basis. This reimbursement program will run from 09/30/2019 through 9/30/2026 or as long as grant funds are available.**

## **How To Apply:**

The homeowner must obtain and provide private well testing results, from NHDES or a NHDES accredited lab that verifies an exceedance of one or more of the NHDES AGQS for PFAS. For the Town to consider reimbursement of private well testing costs, the homeowner must:

- **Submit a request for testing to NHDES** via its online (\*see link) “Southern NH PFOA Investigation Private Well Testing Request Form”; AND
- **Receive a written *denial*** in response to the Well Testing Request Form from NHDES, and submit a copy of that denial with the completed application. (It is customary for NHDES to respond via email to each submitted homeowner Well Testing Request Form.) AND
- **Pay out-of-pocket for private well PFAS analytical testing** that indicates an *exceedance of any one or more of the four NHDES AGQS for PFAS*, and submit a copy of that paid invoice with the completed grant application.

The homeowner is to procure, arrange and pay for the installation of the POET or POU or MVD hook-up. The Town is *not* a party to any contract between the homeowner and the vendor. The private well owner must submit copies of a paid invoice for the POET or POU systems or public water connection cost, as well as the test results to show proof of exceedance. In case of hardship, the Town will review and consider applications on a case by case basis. If your well is located outside 2018 Consent Decree area for the SGPP Site; testing showed an exceedance of one or more of the four NHDES AGQS for PFAS; and you installed a POET or POU system, or paid to connect to MVD after 9/30/2019; you *may* be entitled to this reimbursement.

**This reimbursement program will run from 09/30/2019 through 9/30/2026 or as long as grant funds are available.**

**This rebate payment is solely for reimbursement for the installation of a single POET or multiple POU systems or hook-up to MVD public water; although well-testing costs under the conditions outlined above may be considered. Any and all future obligations or related expenses are 100% to be paid and are the responsibility of the homeowner. The Town does not accept any liability nor responsibility for installation or maintenance of the system and by accepting reimbursement funds from the Town, homeowners are agreeing to hold the Town harmless from any damages or liability related to the POET, the POET installation, POU, the POU installation, the hook-up to MVD public water and the operation of the POET or POU or hook-up.**

**Private (residential) well must be located in Merrimack, outside the 2018 Consent Decree area for the SGPP Site (\*see link) and exceed one or more of the four NHDES AGQS for PFAS set by the state at RSA 485:16-e as may be amended.**

**The Town reserves the right to deny a grant fund application for good cause.**

**Documentation required with the rebate application include:**

- Certification that the applicant is not receiving alternate water from a third party
- Certification that the installation complied with applicable state and local plumbing regulations and local permitting requirements
- Analytical lab results showing an exceedance of one or more of the NHDES AGQS for PFAS
- If applicable written denial of NHDES sampling
- Pretreatment analytical lab invoice (if applicable)
- For POS and POU installations Filter model and serial number and/or specification sheets for media and equipment installed
- Photo documentation of the installation
- Post-treatment analytical lab result showing PFAS below the NHDES AGQS for POS or POU installations
- Invoice (if any) for Post-treatment analytical lab result showing PFAS below the NHDES AGQS
- Proof of property ownership/ residency
- Final paid invoice or final invoice from vendor/subcontractor, as applicable
- Waiver of claims, if applicable

**Return completed applications to the Town Of Merrimack Town Manager's office.**

Town of Merrimack  
Office of the Town Manager
