

Town Manager's Update

January 13, 2022

Announcements

- Starting February 1, there will be a change to what is accepted as part of the single stream recycling. We will no longer be able to accept **#3, #4, #6, or #7** plastics. Those plastics should be disposed in the trash stream.
- The skating rink at Watson Park is open for the season – as long as temperatures continue to cooperate. The rink is lit from 4:30 to 9:00 each evening.

Town Manager's Report

- The Town is actively going through the hiring process for 7 firefighters. We have candidates in varying stages of the hiring process and are considering several candidates. The Town does have a nepotism policy, so we will not be offering positions to family members of current employees unless we have assurances in place to avoid conflicts of interest and supervision of them by a family member.

We have 2 that start January 24th, 1 in the last phase of the background check, 1 half way through the background check. This should take care of the positions approved related to the Safer grant. Additionally, we have one candidate who has been extended a Conditional Offer who we are waiting to hear back from. We have 2 other openings and are considering candidates for those positions.
